## Transformational Hypnotherapy

A New Dimension in Therapeutic Technology

1

*Are you ready to explore the healing and transformative power hidden within your subconscious mind?*

*Do you know it is possible that unlimited creativity and the power to live your dreams awaits discovery within yourself?*

*Are you ready for a new career in the healing arts: a career that can help others access this transformative power within themselves?*

If you answered yes to any of these questions, you may be ready for **Transformational Hypnotherapy**.

**Transformational Hypnotherapy is a powerful methodology incorporating the modern technologies of hypnosis and psychotherapy and the ancient practices of alchemy and shamanism.**

### Why Hypnosis?

The subconscious mind controls our emotions, our immune systems and our bodies. It is filled with awesome mysteries and incredible powers, yet is simple to explore through hypnosis. It is possible to work directly with the subconscious mind to change feelings, behaviors and, therefore, our lives.

Hypnosis is a relaxed but highly focused state of mind, which allows the critical factor of the mind to be bypassed and the subconscious to be directly accessed. In this state, suggestion and direction can be very effective, and information that the conscious mind is unaware of becomes available. When the subconscious mind is empowered, positive changes can occur.

The hypnotherapist uses an alert level of trance during which the client remains fully aware and in control while still able to access subconscious memories, emotions and resources.

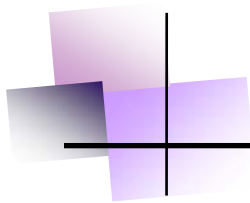

Hello. I'm Sue Marshall, Director of  
**InnerQuest School of Hypnotherapy**

Thank you for your interest in Transformational Hypnotherapy. Many years have been devoted to developing the programs described in this brochure. They provide powerful tools for contacting inner resources that can resolve spiritual, emotional and behavioral issues. They can also provide a profound transformation of consciousness.

Please call for an appointment to visit one of our classes and experience for yourself the environment of safety, comfort, and openness that we create here at InnerQuest.

---

The **InnerQuest** office is open during normal business hours. If you find no one in the office, please call **(530) 889-8505** or email [suemarshall@sbcglobal.net](mailto:suemarshall@sbcglobal.net). Leave your name, phone number, and a brief message.

## What is Transformational Hypnotherapy?

### A powerful tool for change!

Transformational Hypnotherapy is a dynamic, empowering set of processes that can bring about lasting, meaningful change in your life and the lives of your clients. It is an interactive, client-oriented form of hypnotherapy which radically departs from traditional hypnosis, while incorporating elements of gestalt therapy, Psychosynthesis, Ericksonian hypnosis, Neuro-Linguistic Programming (NLP), shamanism and the archetypal psychology of Carl Jung.

Modern transformational hypnotherapy is a psychological and spiritual discipline using archetypal inner guides to support the liberation of the true self and create inner wholeness. These powerful beings that live in the subconscious mind can help us with health, happiness, relationships, prosperity, personal power, and the identification and fulfillment of our life purpose. These resources can be easily accessed in the hypnotic state. Once released and empowered, the emerging higher self can deal with life in a way the old self never dreamed possible.

**Hypnotherapy is among the top ten career choices for the 21st century.**

### A Transpersonal Journey...

In addition to acquiring extensive new cognitive learning, participants in this training will also personally experience the transformation that occurs when we begin to recognize and let go of our old personae, stories, and unconscious beliefs about ourselves, others, and the world. The essential self that begins to emerge is a strong inner core that belongs to everyone, and is connected to, not separate from, all existence. A natural state of elevated consciousness comes easily from our relationship with guidance, and helps us discover and focus on our life's purpose.

This training teaches you to contact the infinite, wise, nurturing source of love that is your higher power. You learn to implement this new truth in your daily life, while learning to use the techniques of Transformational Hypnotherapy to support others in their healing.

**Expect this experience to change your life.**

### A profession for the 21st century!

Hypnotherapy is cited by the Wall Street Journal and Entrepreneur magazine as being among the top ten career choices for the 21st century. Because of the escalating cost of health care, people are looking for alternatives to expensive, long-term therapies.

Hypnosis is considered brief therapy, yet can create long-lasting changes in a short time. For this reason, many mental and emotional health care practitioners are adding hypnotherapy to their repertoire of skills. Transformational Hypnotherapy is the state-of-the-art hypnosis technology.

**InnerQuest School of Hypnotherapy** is a vocational training institute approved and regulated by the California Council for Private and Post-Secondary and Vocational Education and the American Council of Hypnotist Examiners (ACHE).

Practicing in groups of two or three students, under the direct supervision of a trained hypnotherapist, creates a profound personal experience of each process with deep integration of the material. In a safe, supportive atmosphere, the emphasis will be as much on your personal transformation as on the acquisition of new healing skills.

People take this training for many reasons: for personal growth, to add tools to an existing therapy practice or to begin a new career in the healing arts. Graduates of the basic program become Certified Master Hypnotherapists, and are also eligible to receive national certification through the American Council of Hypnotist Examiners (ACHE). With additional training, graduates may also receive their Certified Clinical Hypnotherapist certification (CCHT).

## Why should I take “InnerQuest” training rather than another hypnosis course?

There are many exciting and professional hypnosis training programs being offered in the U.S. today. Before taking *any* course, however, research the field thoroughly and make sure you are taking the program that is best suited to *your* needs.

First, the course you consider should be approved by the State Department of Education for vocational instruction, and by the American Council of Hypnotist Examiners (ACHE), which is the largest and most credible organization of professional hypnotherapists in the nation. The programs offered by **InnerQuest School of Hypnotherapy** are approved by ACHE and the State of California for career training and Continuing Education in hypnotherapy.

Second, decide what you want in a hypnosis program. Here are some of the features that make our program special:

Provides state-of-the-art quality instruction and materials.

Provides more than one trainer, thereby demonstrating a variety of therapeutic styles.

Has a client-empowering, heart-centered foundation.

Contains the best technology available today for healing the “inner child:” rescuing the child from trauma and neglect of the past, and providing the child with new, loving parents from the client’s own inner world.

Provides extensive practice with thorough supervision. Each month the students give and receive one or more hypnotherapy sessions under the direct supervision of a trained hypnotherapist. This approximate 1:3 teacher/student ratio is unequalled anywhere in the hypnotherapy training field. Our program is thus able to generate a profound personal growth experience for every participant. This transformation of the student is a primary goal of our training.

## What People Are Saying About InnerQuest School of Hypnotherapy

*“Transformational Hypnotherapy is one of the most powerful tools for healing and personal transformation that I am aware of, and practicing it is exciting, creative and immensely gratifying. It uses me fully, calling on all of my strengths and skills: improvisation, intuition, languaging, sensitivity, empathy. I am doubly grateful for finding it at **InnerQuest**, because Sue Marshall is not only a gifted therapist and teacher, but a fine and loving human being who is as committed to the transformation and growth of her students as she is to their education; it has become a second home for me.”*

**Janice Ross**  
**Certified Clinical Hypnotherapist**

*“As a Shamanic Practitioner offering spiritual healing for my clients, I was aware that the guided journey that hypnotherapy offers was a natural addition to my healing skills. At **InnerQuest** I learned how the transformational process blends so beautifully with ancient tribal healing practices, which humans have been using for thousands of years. These skills have given me the ability to take my clients to deeper levels of healing that give them power over their own process. My own metamorphosis during the training has given me a stronger sense of Self and a new confidence to be who I came to earth to be. InnerQuest is more than a school, it is a transformation machine that gives power, confidence and a sense of well-being to those willing to do the work.”*

## MORE ABOUT TRANSFORMATIONAL HYPNOTHERAPY

### **Transformational Hypnotherapy includes the following processes:**

- Rescuing the inner child from the trauma, neglect and emotional pain of the past
- Providing the inner child with new, loving parents and the experiences of a nurtured childhood
- Offering strategies for contacting, testing and working with inner resources (archetypes) through trance, movement and shamanic practices
- Contacting past-life memories within the collective unconscious to access creative abilities, resolve trauma, change karma and alter "contracts" with significant others
- Integrating sub-personalities (different voices within ourselves) to resolve conflicting desires and goals, which leads to the unification of the will and the achievement of personal dreams/goals
- Using movement, psycho-drama, emotional release and sometimes bodywork to achieve integration at the physical, emotional, mental and spiritual levels

### **How Can Transformational Hypnotherapy Help?**

The technology of Transformational Hypnotherapy has been applied very successfully to all of the following issues:

- Addiction Recovery** – our work is especially compatible with 12-step programs
- Healing the Survivors** - of childhood abuse and molestation
- Weight Management** - including compulsive eating
- Smoking Cessation** - focusing on long-term results
- Physical Illnesses** - working with **underlying causes** of illness (in conjunction with medical treatment)
- Stress Management** - helping you to create a more relaxed and unhurried life style
- Enhanced Creative Potential** - helping you to achieve your peak performance
- Co-Dependency and Relationship Issues** - learn about co-dependency and how to break free of the co-dependent cycle
- Decision-Making Ability** - helping to enhance your personal and career success

**How Do I Apply?**

If you're interested in this training, complete the “Application for Admission,” which includes a one-page personal statement about yourself and your intention for using the Transformational Hypnotherapy training. Mail or deliver the application and the \$75 nonrefundable fee to InnerQuest as early as possible. Space is limited. Schedule a brief personal interview with an InnerQuest staff member either in person or by phone.

**Am I Guaranteed Certification upon Completion of the Basic Training?**

The primary goal of InnerQuest is to teach you to become a competent and successful Master Hypnotherapist: one who will become a clear, heart-centered facilitator of the sacred process of transformation. To meet this goal, students are evaluated throughout the training in several areas:

demonstration of the techniques, written exams and class participation. The final decision to certify each student rests with the trainer and teaching staff.

**Do You Offer a Home Study Course?**

Despite the demand, our school does not offer home study nor video course options. There is no substitute for the specialized learning generated by carefully supervised, in-class practice and personal experience of hypnotherapy processes. We do not believe that a hypnotherapist can be adequately trained to practice professionally through

**What Other Programs Do You Offer?**

**Certified Clinical Hypnotherapist (CCHT) & Certified Transformational Hypnotherapist (CTHT)**

You can qualify as a Certified Clinical Hypnotherapist (CCHT) when you have completed the following for at least 300 CEUs:

- The basic training program (225 hours/CEUs)
- Advanced workshops (at least 45 hours/CEUs) OR assist at a basic training class (30 CEUs)
- OR repeat the basic training as alumnus (30 CEUs)

To qualify as a Certified Transformational Hypnotherapist (CTHT), you must meet these requirements and have at least 350 CEUs:

- Become a CCHT with at least 300 CEUs
- Experience ten (10) private hypnotherapy sessions with a Certified Transformational Hypnotherapist
- Take an additional 50 hours/CEUs of advanced course work AND/OR assist in or attend as an alumnus a basic training if you have not already done so in the past two year (30 CEUs) for a grand total of at least **350 CEUs.**

**Trainer Assistant Program**

Our Trainer Assistant Program is designed to provide an opportunity for additional deep exposure to the training material and additional practice of therapeutic skills. Assistants are graduates of the 225-hour basic training who have demonstrated outstanding cognitive understanding and practical application of Transformational Hypnotherapy techniques. While attending the basic classes, Assistants aid the trainer with delivering the material, and supervise current students, in groups of two to three, who are practicing the techniques presented in lecture and demonstration. The Assistant’s responsibility is to observe, support, assist with protocol (as needed) and give constructive feedback at completion of a practice session. This is a unique opportunity for the Assistant to attend another basic training class for the low cost of only \$175.00 while also obtaining 30 hours of credit toward his or her Clinical Hypnotherapist certification.

**Alumni Program**

Anyone who has successfully completed the 225-hour basic training course may return to the alumni program as often as they choose. To participate in the alumni program, you must be current with your CEUs (30 CEUs every two years).

**Associated Costs (approximate)**

Includes working with those aspects of the client that enjoy the habit or behavior. Learn to recognize certain patterns of behavior, even when client does not, and move client beyond denial.

### **108: Establishing a Professional Practice**

Explore advertising and free marketing opportunities, learn office management and networking skills, and discuss the legal and ethical limits to your practice.

### **109: Review and Final Exam/Graduation Ceremony**

An additional 9-hours of outside-of-class trade sessions between students (equates to six 1.5 hour sessions) completes the 225-hour program.

## ADVANCED COURSE DESCRIPTIONS

Courses listed are approved for 8 - 25 Continuing Education Units (CEUs) by the American Council for Hypnotist Examiners (ACHE). InnerQuest School of Hypnotherapy is licensed to operate by the State of California Council for Private Post Secondary and Vocational Education #3403821.

### **232: Communication – 17 CEU's** *(Taught by Sue Marshall)*

This workshop teaches hypnotic techniques to help get to the root of communication stumbling blocks. You (or your client) will be shown how to get deeper into past emotional trauma, which may be responsible for the ineffective communication. You will learn how to take responsibility for your own communications by not dumping emotional “garbage” on others.

### **233: Tool Box: Resources for the Hypnotherapist – 17 CEU's** *(Taught by Sue Marshall)*

Learn how to use various modalities in your practice to help your client's transformation and emotional clearing. Learn how to add art, music, games, pictures, mirrors, exercises, etc., to your tool box so that your client can more easily access their subconscious information. Also, you'll learn how to use and integrate dreams in the hypnotherapeutic process.

### **234: In-Depth Inner Child – 17 CEU's** *(Taught by Sue Marshall)*

Discover the missing pieces from childhood that may affect your life today. With the use of trance, explore a variety of modalities that can identify where you may have some level of stress or trauma in your life. Often, a variety of interpersonal developments become suppressed because of that stress or trauma. When people shut down emotionally, they create “missing pieces” that need to be recollected and integrated. Learn where those “holes” are in your existence and how to fill them, thus making your (or your client's) life more complete.

### **235: Co-Dependency – 17 CEU's** *(Taught by Sue Marshall)*

Learn how to take care of yourself and take responsibility for your own feelings, thoughts and actions. You'll also learn how to say NO, and resist the urge to solve everyone else's problems. Learn several techniques that help you take more control of your life. The use of trance will take you deeper into the hidden parts of YOU. Once you see where the problems begin, you can begin to change them.

### **236: At the Core – 25 CEU's** *(Taught by Sue Marshall)*

The Journey is an opportunity to go to a new level of personal growth, achieve a higher level of consciousness and purpose in life, as well as eliminate limiting core beliefs. Join us in a life changing process that will empower you and enable you to stretch and discover profound personal power within yourself. Reawaken the creative forces within you to help bring love, peace and success into your life in one extraordinary weekend.

### **237: Stage Hypnosis – 17 CEU's** *(Taught by Sue Marshall)*

In this workshop, learn the fundamentals of performing in a group setting to promote fun or therapy. You will learn, experience and practice how to do the following:

- Use your power of imagination
- Preliminarily test volunteers for susceptibility (to hypnotism)
- Use “stage show” rapid induction and awaken persons on stage AND in the audience
- Define the difference between clients for “stage show” and “therapeutic applications”
- Use hidden techniques for deepening hypnosis
- Use post-hypnotic suggestions
- Know what equipment or clothing to use when doing a show or party

**238: Boundaries – 17 CEU's** (Taught by Sue Marshall)

In the BOUNDARIES class, students will learn:

- The definition of boundaries
- How they affect you and your life
- The difference between defenses and boundaries
- How to communicate with clear boundaries
- What to do if/when boundaries are violated
- The difference between boundaries with intimacy and personal boundaries
- How to strengthen boundaries and hold them in place

**243: Hypno-Kinesiology – 8 CEU's** (Taught by Sue Marshall)

This class is about learning how to blend kinesiology with hypnotic techniques to get to core beliefs. Through kinesiology (muscle testing) our body does not lie. Rapid inductions along with kinesiology and hypnosis will bring the client deeper than any one modality alone.

**244: Cycle of Creation – 8 CEU's** (Taught by Sue Marshall)

Have you ever set out with a goal and ended up feeling frustrated or disappointed? This class is about an actual formula to avoid this cycle of sadness and depression. It's not about "what" you create, it's "that" you create. If you are not creating in your life, someone else will be.

**245: Addictions, Brain Chemistry & Core Imprints – 17 CEU's** (Taught by Rebecca Bolow)

In addressing the body's ability to adapt to the higher frequencies being introduced by our acceleration to the next dimension of existence, Rebecca has found three things directly related to humanity's inability, and therefore struggle, to do so. First, is the "core imprint" or "the first conclusion the consciousness makes upon incarnation". This usually takes place in-utero, at any time from conception to birth, setting up the patterns for this lifetime. Second, is addictions, or how our body, both physical and emotional, participates in addictive cycles begun by a lack of nutrients, both environmental and physical, and synthetic substitution of these nutrients, which lead to number three, brain chemistry. Here the addictive cycles are compounded in the higher chemistry of the brain or neurotransmitters, which tell us how to feel or not feel and/or their distortions of these things. Help and healing can be easy, profound and complete. This is the magic, the next evolutionary step of humanity, and the alchemy of creating a new element by merging spirit and matter, rather than co-existing. Learn to truly find and walk that bridge which leads spirit into matter.

**246: The Mind Body Connection – 17 CEU's** (Taught by Sue Marshall)

The mind-body connection is an ancient technique that enables you to use the powers in your own mind and body to rid yourself of unwanted physical discomforts. (It is not a substitute for medical treatment.)

You will learn:

- Trance induction skills and hypnotic language
- Movements to promote faster improvements to health
- To connect to your own inner healer

**247: Hypnosis With Children – 17 CEU's** (Taught by Sue Marshall)

Children often stay in their world of day dreaming and play, which is hypnosis. Therefore, they respond well to hypnosis. What you will learn:

- At what age a child can be hypnotized
- How long a session should be
- Techniques for hypnotizing children
- How to work with bed wetting, pain, anxiety, skin problems, nightmares, grades, etc.
